Detected Figures

This page tests figure detection from vector drawings and from images, with captions found by their labels.

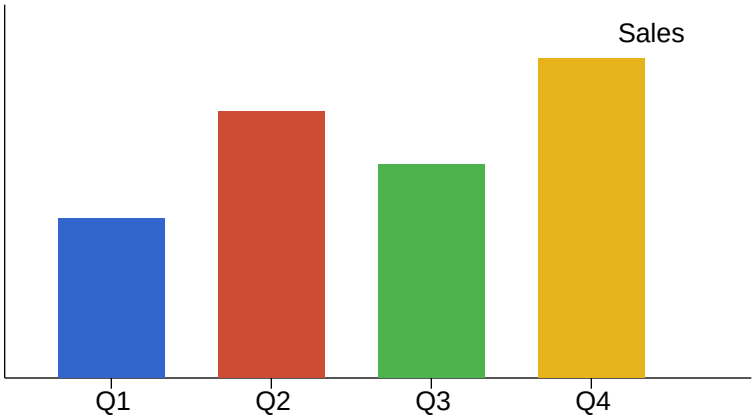

Figure 1: Quarterly sales drawn as a bar chart.

Figure 1 shows sales by quarter; the paragraph after it is running text that refers to the figure and is not a caption.

Table 1: Fruit prices.

Fruit	Price
Apples	1.20
Pears	0.95

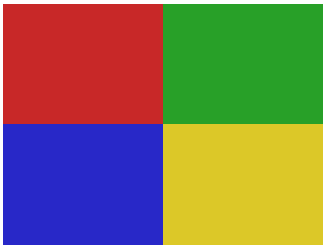

Figure 2. A raster image placed by its matrix.

A closing paragraph ends the page.

Scanned and Type 3 Text

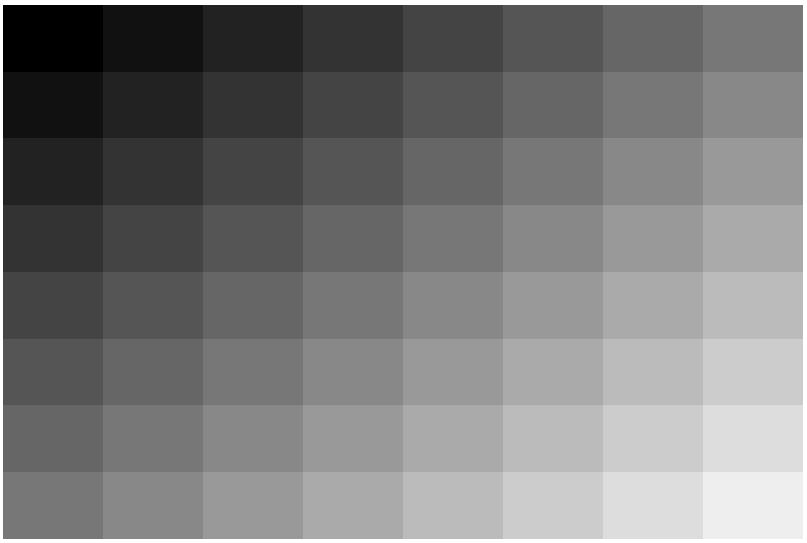

Figure 3: A scan with its recognised text.

The line below is set in a Type 3 font without Unicode:
