LUMEN

PLANETARIUM · SPRING SEASON 2027

NEW
FULL-DOME

Twelve new shows under the dome

Live astronomers · Family Saturdays · Late nights with telescopes

WHAT'S ON

DAILY 11:00

Our Restless Sun

Sunspots, flares and the solar wind, with live images from our own solar telescope on clear days.

DAILY 14:00

Moonwalkers

The six Apollo landings, retold under the dome with the photographs the astronauts took.

SAT 10:00

Little Stargazers

A gentle first show for children under seven, with songs, constellations and a sleepy owl.

FRI 20:30

Deep Sky Late

Galaxies, nebulae and clusters, then telescopes on the roof terrace if the sky allows.

SUN 16:00

Living on Mars

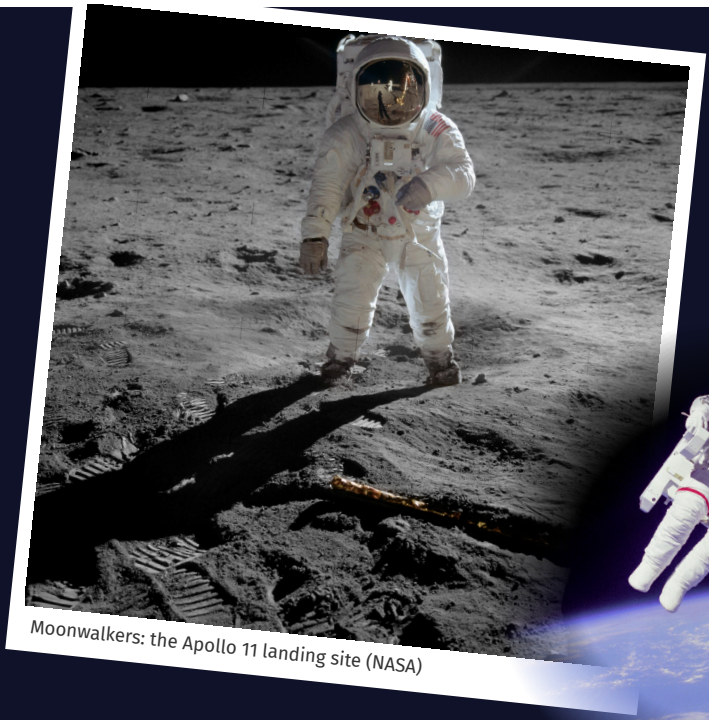

What it would take to build a home on the red planet, from water to soil to air.

WED 18:00

Ask an Astronomer

Forty minutes of your questions, answered live. Nothing is too simple or too strange.

ADULT £9	CHILD £5	FAMILY £24

Moonwalkers: the Apollo 11 landing site (NASA)

SIXTEEN WAYS TO MIX LIGHT

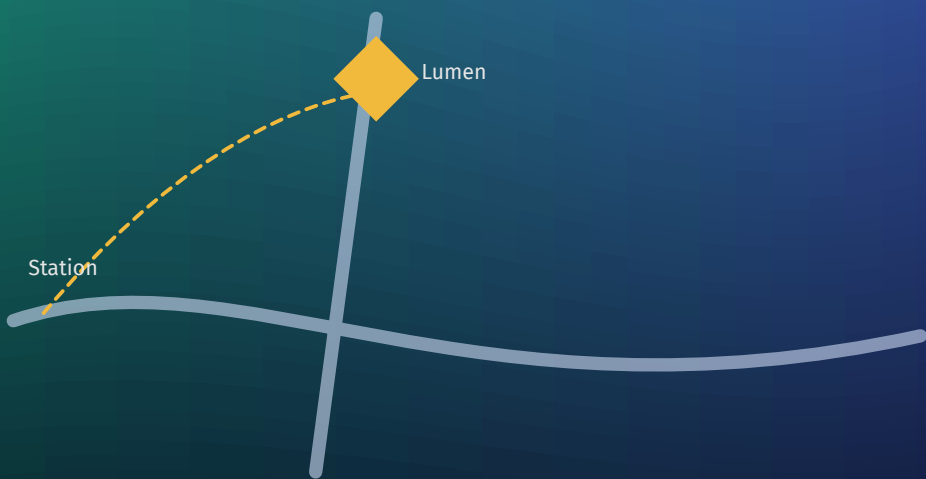

Our new projector blends sixteen layers of light in real time. Each disc below is a gold circle over a sky-blue square, drawn with one of the sixteen blend modes a PDF file can use.

Book shows online or at the door · members see every show free

VISIT US

Lumen Planetarium
Observatory Hill, an invented address
Open Tuesday to Sunday, 10:00 to 18:00
Late nights every Friday until 22:30

Lumen Planetarium is invented for a Broadside sample document. Photographs: NASA, public domain. Printed in CMYK plus one spot colour, Lumen Gold, on 170 g silk with a 3 mm bleed.
